

We were in the market for a Screened in porch. We had some friends who had used Evolutionary Decking, Inc, and we decided to get a quote from them. It didn't take us long to decide that Frank Crenshaw was the man to do the work for us. Frank had a gentleman named Ron do the actual building of our deck; which was immaculate workmanship! From the moment they started, until the final door was hung, craftsmanship was the key word. Every person that we dealt with took pride in what they did, and went the extra mile to make sure it was to our satisfaction. Overall, it was the attention to detail that we were the most impressed with. We knew we would get a quality work, but were still very impressed at the extra time and effort they put into the wood. Now as we sit out and enjoy our deck, we still can't believe it is OUR deck and how beautifully it turned out! We have recommended Evolutionary Decking to all of our friends, and would recommend them to anyone!
